"The Home of the Pansy"

JUST a moment before
you get too deeply in-
terested in this leaflet—

There is no flower more beloved and admired than the Pansy; no flower border, be it ever so gay and gorgeous, is so interesting as the Pansy bed. The Pansy never fails to please, and, therefore, no garden, large or small, should be without its bed of Pansies. Its culture is not at all difficult and may successfully be attempted by any one inexperienced in horticultural affairs.

We specialize in Pansies.

Have done so for 38 years, each year trying to put out something better than ever before.

How we have succeeded is shown by the many complimentary letters we get from our old friends and customers, some of whom have been with us since we started in business.

If you have not bought of us before why not **start now**. It will prove to our mutual advantage.

A Word About Pansy Culture

PANSIES can be raised on any well-drained soil, which contains plenty of humus, easily obtained by mixing in soil before planting either well-rotted manure, dead leaves or soil from the woods.

For Blooms in Early Spring

Set out plants in Fall any time before freezing. In the South little or no covering will be necessary to carry plants over Winter. North of Washington would advise a light covering of manure or long straw to form a mulch over Winter.

For Spring planting order our large size for early blooming.

A Word About Location

For best results place your bed where it gets three or four hours morning sun and mostly shade balance of the day.

Give plants plenty of water and *pick off the flowers when they show signs of fading, this will insure a continual bloom.*

The above are cuts of photographs of our regular and large size Pansies. *About one-third actual size of plants.* Note difference in the size of plant and roots.

There is no difference in the flowering, only the size of the plant.

The large size will bloom several weeks earlier on account of their age.

If you want blooms ahead of your neighbors, order *large size*. For greenhouse purposes, the large size we recommend as they are ready to bloom.

When ordering be sure to state size wanted. This is important as we are poor guessers.

PANSIES

PITZONKA'S *Giant-flowering Mixture*

This mixture represents the result of 38 years careful selection and improvement.

The flowers are giant in size and perfectly shaped, with long, strong stems. The petals are velvety—some semi-double at the edges. This strain comprises a most beautiful collection of colorings and markings. Colors range from delicate orchid and yellow tints to deep reds, blues and purples. The plants are robust and healthy—very compact with many flowers on each plant.

For general purposes we find PITZONKA'S GIANT FLOWERING MIXTURE the most popular.

Named Varieties

For those interested in landscape gardening and special color schemes, we offer the following varieties: (*Can't furnish less than 100 of any one color*)

LORD BEACONSFIELD. Purple violet.

BRONZE. Bronze shades.

GOLDEN QUEEN. Pure yellow.

GOLDEN YELLOW. Yellow with dark eye.

EMPEROR WILLIAM. Ultramarine blue.

RAPHAEL. Bright blue.

SNOW QUEEN. Pure white.

VULCANO. Dark red.

ROYAL. Deep purple.

WHOLESALE PRICES ON PANSIES

Regular size plants: 75c. per 100, \$4.00 per 1000; \$3.50 per 1000 for 5000 or more.

Large, bushy size plants: \$1.10 per 100, \$7.00 per 1000.

All prices F. O. B. Bristol

HOME GROUNDS—WHERE WE RAISE OUR PANSY SEED

BELLIS (*English Daisy*)

MONSTROSA

This is one of the lovely edging perennials with gay button-shaped flowers in early Spring. They thrive best in moist and somewhat shady situations. Should be mulched where ground freezes.

These are the Monstrosa variety and surpass all other strains in their strong, robust growth and extra large, double flowers.

	<i>Price</i>	
	100	1000
MONSTROSA, pink.	\$0.70	\$3.50
MONSTROSA, white.70	3.50
MONSTROSA, mixed.70	3.50

VIOLAS (*Tufted Pansies*)

A beautiful hardy plant for your old-fashioned garden and rockery, also for borders.

Blooms from Spring continuously to late Fall.

The JERSEY GEM, while small in flower, is the most popular of all Violas. It is a rich violet shade and what is of greatest importance, a constant bloomer.

It is very hardy and does not need renewing every year.

Price: \$10.00 per 100, \$1.50 per dozen

MYOSOTIS (*Forget-me-not*)

ALPESTRIS VICTORIA. Of bushy habit, bearing large bright blue flowers; very fine. 6 inches.

ELIZA FANROBERT. Of strong growth with clusters of large, bright blue flowers. 10 inches.

Price: 75c. per 100, \$4.00 per 1000

DELPHINIUM

(Hardy Larkspur)

No florist or home gardener should be without this old-fashioned perennial—the most popular of all hardy plants. Its long, showy spikes make beautiful bouquets and baskets and blend harmoniously with every flower in your garden.

We offer the two best varieties:

BELLADONNA, a light blue, *and*

BELLAMOSUM, dark blue.

CHINENSE GRANDIFLORUM. A dwarf strain with loose branches and sprays of bright blue flowers. 2 feet.

Price: \$6.00 per 100, \$1.25 per dozen

AQUILEGIA *(Columbine)*

These are among the most beautiful of Spring and early Summer flowers; very effective when grown in the herbaceous border and groups among shrubbery. Graceful, spurred flowers on stems 2 feet or more above the fern-like foliage.

LONG SPURRED HYBRIDS. Flowers of many rich and varied colors, with long spurs.

Price: \$6.00 per 100, \$1.25 per dozen
